- Outline the goals for this phase and briefly mention any revisions made to the previous phase. If you have modified your EER diagram, turn in the modified copy.
  - The goal of this project is to draw the Entity Relationship diagram of The WALLET Payment Network and also analyze
  - We have to list out all the operations performed in the payment app like Zelle and Venmo that enables individuals to electronically transfer money to others.
  - We have modified the entire model as per the solution provided by the professor.

An ER Diagram for the WALLET Payment Network

## 2. EER to Relational mapping:

## 3. Identify any difficulties you may have had with this phase of the project.

- Converting the ER diagram to Relational diagram was quite easy so we did not face any difficulties.
